WHAT WE HEARD

Good health is the cornerstone of a happy and connected community.

We want a sense of pride, safety and belonging.

Get more people walking, cycling, using public transport and using other sustainable modes of transport.

We want to create a local environment including affordable and accessible opportunities for all residents and visitors to achieve and maintain good health and wellbeing.

Opportunities to learn and explore.

People first in development and urban design.

Become more energy and water efficient.

A place that is clean, safe and accessible.

A safe, interconnected and well maintained transport network that makes it easy for everyone to get around

Options to access resources, knowledge and technology in a safe, nurturing environment.

Visionary leadership and objective decision-making.

Employees and elected members acknowledge the responsibility associated with spending and managing public money.

We want to be a desirable place to do business and attract businesses and/or retain businesses.

Youth wants more stuff to do **FUN STUFF!**

Ensure that information is available in various ways not just digital.

Engage the community authentically and keep us informed.

Reduce red tape, empower businesses and community groups and say **YES.**

Deliver the right projects that are planned properly and deliver what they are meant to.
