COUNCIL POLICY INFORMATION

This document is a reference guide to the City of Greater Geraldton's Council Policies, its purpose to assist Elected Members, City employees and members of the community in the use and interpretation of the Policies.

INTRODUCTION

The *Local Government Act 1995* empowers Council under section 2.7(2)(b) to "determine the local government's policies."

In simple terms, a policy indicates what can be done, management practices provide how it is done and delegation indicates who can do it. The City has Council and Operational Policies to guide both its direction and operation, and Planning policies relating to planning and development within Local planning scheme areas.

Council Policies

Council policies set governing principles and guide the direction of the organisation to align with community values and aspirations. These policies have a strategic, external focus and align with the mission, vision and strategic direction of the City.

Council Policies are developed to further the achievement of the City's strategic goals or contribute to outcomes relating to mandatory obligations. They are defined courses of action related to particular circumstances which guide staff in what is permissible when dealing with these matters.

Operational Policies

Operational policies are developed for administrative and operational requirements. They have an internal focus and form the strategies and actions for policy implementation. They provide details of the actions and processes required by staff.

Planning Policies

Planning policies have been prepared in accordance with Clauses 3, 4 and 5 of Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015* which allows Council to prepare local planning policies relating to planning or development within the Scheme area.

PURPOSE OF COUNCIL POLICIES

Council Policies provide guidance for future decisions and behavior and the achievement of rational outcomes. Council Policies show the approach the Council intends to take in regards to a particular issue and:

- Support consistency and equity in decision making,
- Facilitate prompt responses to customer requirements; and
- Promote operational efficiency.
