### 3. Terms of Reference

Committee reviewed the proposed Terms of Reference. See attached.

**Committee Decision:** Proposed Terms of Reference was accepted by the committee.  
**CARRIED**

It was agreed by all present that during a State of Emergency permission will be sought to hold meetings by electronic means (Teams). All Councillors wishing to attend meetings electronically will need to notify administrators (LY/JS) prior. Permission has been given for all Councillors to attend the June meeting by electronic means should we still be in a State of Emergency.

**Action:** LY and JS to review group list and identify new sources for active participation.

### 4. Disclosure of Interests

No disclosures were made. BH queried validity of this process in relation to committee and group members.

**Action:** FN to follow up on the City's policy in relation to BH's query.

### 5. Committee Membership

Committee discussed about membership, potential groups, members and establishing a quorum. LY noted advertisement for seeking expressions of interests from community representatives for Geraldton and Mullewa closes on 18 March 2022.

Issues discussed:

- Identify proactive stakeholders to reach a quorum.
- Invite potential committee members and create a new group of members
- Establish a standard committee consisting of three (3) council members, WA Police, and community representatives if there are nominations. Other group members are included by invitation.
- Review previous crime prevention plan and key stakeholders and recognise current trends and stakeholders.
- Youth Crime Prevention Officer Report to be renamed Community Safety and Crime Prevention Update. Service delivery and strategic vision shared by community organisations may differ. For example Department of justice (Youth and Adult) and Aboriginal organisations.
- Future role and potential members to form a quorum.

FN raised the importance to clarify meaning and priorities of crime prevention. A difference in opinion between stakeholders example domestic violence which may be a priority for the Council and not for other group members need to addressed.

**Committee Decision:**

- Review list of committee members and gain further information on activities and programs of other agencies in relation to safety and crime prevention.
- Standing agenda to invite single organisation to present and share program and service information to committee about safety and crime prevention strategies.
- Community representatives may be elected as part of standard committee and relevant process to be discussed in future meetings.

**Action:** Committee to review and identify group members and extend invitations.

**Action:** FN to follow up DLG subgroup with an intent for a City representative to be invited to these meetings.

## 7. Youth Crime Prevention Officer Report

JS briefed the committee on Youth Crime Prevention Officer Report prepared by LY. See attached for detailed report.

Highlights from the report:

- Late night basketball is set to run in Terms 2 and 3 but there are difficulties securing the Active West Stadium due to the GABA running a winter competition. Other options are being explored.
- Wonthella Skate Park has seen a reduction in extensive anti-social behaviour due to the success of the Skate Today program which is being expanded to GRAMS Reserve.
- Growing success of Mullewa Rising Stars Program. See attached report

JC queried about police involvement with youth program. JS responded there has been regular involvement in the past.

BH commended Youth team on their efforts.

**Action 1:** LY to distribute Mullewa Rising Stars Program with committee.

**Action 2:** JS and LY to identify sources of fear of crime, perceptions and crime statistics. FN recommended the City's plan to recognise positive stories as part of this program.

**Action 3:** Youth team to consider proactive engagement with community and businesses to reinforce safety and crime prevention.

**Action 4:** FN to investigate the Community Satisfaction Survey

## 8. Community Safety and Crime Prevention Plan Link

JS presented and discussed key points with the Committee. Please refer to [this link](#) for details.

## 9. General Business

Cr Critch raised the issue that CCTVs in Mullewa are not working. Cr Critch asked for a follow up.

Safe space – Cr Critch emphasised the need for family friendly environment in the region. Rocks Lane Way poses potential risk in terms of safety. LY explained this is being addressed by Economic development team.

**Action 1:** LY is following up with Pieter Vorster, Coordinator of Economic Development.

**“ Reduce

of crime ”**

# FOREWORD

For a number of years now the City of Greater Geraldton has been actively involved in working with the community to develop strategies that aim to increase community safety and crime prevention.

The City has long recognised that crime and the perception of crime has a negative effect on the community, and that local government authorities have a role to encourage collaboration to investigate the nature of crime and how best to provide localised solutions.

While traditionally crime reduction has been thought of as addressed through law enforcement, security operations and the criminal justice system, it is now agreed that community and other non-government agencies have a valuable role to play through social strategies.

The City's Community Safety and Crime Prevention Committee is made up of representatives from various agencies and community organisations. Members of this group provide guidance and expertise to address the issues highlighted in our Community Safety and Crime Prevention Plan. The Committee is an excellent forum that allows the free flow of information and ideas, and connects members to facilitate better outcomes for our community.

We are already celebrating the successes of programs such as Safe Space, Midnight Basketball, Neighbourhood Watch Engraving Days and continual expansion of the CCTV network. The development of close relationships with both government and non-government agencies also further our progress.

The Community Safety and Crime Prevention Plan outlines new initiatives that build on previous successes and further advance community safety in the City. The plan aims to identify measures of success for safety and crime prevention and foster an approach to community safety that is wholly embraced by the community and the City.

I encourage and thank all the dedicated and enthusiastic members of our community and representative agencies who continue to work together and take ownership of the Community Safety and Crime Prevention Plan.

# GERALDTON POLICE

In 1829 Sir Robert Peel, the man considered the father of modern day policing, created nine principles of law enforcement. The one 'Peelian' principle I consistently reinforce to my officers is "The test of police efficiency is the absence of crime and disorder, not the visible evidence of police action in dealing with them".

I am happy to say that at the time of writing this, the Mid West-Gascoyne Police District (including the Geraldton subdistrict) have reduced crime over the past two years and are well positioned to achieve that again this year.

This outcome has been achieved not only due to the diligent efforts and endeavours of my officers, but by them working collaboratively with a variety of government and non-government agencies and community members. Contrary to popular belief, police are not solely responsible for community crime issues as this is the responsibility of each and every community member. This may be as simple as community members better securing their residences, not leaving valuables in view in unattended vehicles, passing on valuable information or reporting suspicious behaviour.

Crime ultimately has three core elements - desire, opportunity and ability. If we can remove just one of these elements, the crime will not occur. This Community Safety and Crime Prevention Plan (CS&CP) codifies strategies and initiatives we can all work on collaboratively to ensure our community is safe and secure for all. I encourage you to take the time to read this document and see what you can do to assist make Geraldton an even better place to live.

## District Superintendent - Mike Bell

As the officer in Charge of Geraldton Police Station and an active member of the City of Greater Geraldton Crime Prevention Committee, I know the only way to disrupt and reduce crime is for the entire community to be involved from the grass roots and to take a no tolerance approach to crime. Geraldton Police has a strong partnership with the City of Greater Geraldton, government and other non-for profit organisations to change the cycle of young people from offending and committing crime in our community.

Supporting early intervention strategies and new and emerging communities is vital to the disruption of young people from a cycle of crime. We are working with our partners to design communities that are safe, secure and sustainable to reduce and eliminate crime hotspots and support each other.

Strong engagement with all stakeholders in the development of strategies to prevent crime and reduce the incidents of crime is vital in providing a safe environment for the community. Geraldton Police are using the latest innovation in policing from increased intelligence capability, suppression and enforcement activities to ensure the development of robust prevention strategies and precise resource allocation.

Geraldton Police will continue to work with the community to reduce the demand of illicit drugs and the effects of alcohol abuse and will continue with a firm approach to those that wish to cause harm to the community. As the Officer in Charge of Geraldton Police Station I endorse the goals, objectives of the Community Safety and Crime Prevention Plan and am personally committed to making our community a safer place.

## Officer in Charge - Brad Bird

# MULLEWA POLICE

As the new officer in charge of Mullewa Police Station and part of the City of Greater Geraldton Crime Prevention Committee, I strongly believe that crime prevention is a key element in fighting the fear of crime and keeping the community safe. Crime prevention is the responsibility of the whole community and we at Mullewa Police Station will do our part in actively coordinating a positive response.

The Western Australia Police Force plays a vital role in communicating crime trends to the community and to other stakeholders within the community. We will take an active part in the development of prevention strategies and strongly support a crime prevention plan. I look forward to working closely with the other members of the panel and assisting in its future development. As the officer in charge of Mullewa Police Station I fully endorse the goals of the plan and am fully committed to achieving its objectives with the aim of making our community a safer place.

**Officer in Charge - Chris Martin**

# Strategic alignment with the Community Strategic Plan 2017-2027

The City of Greater Geraldton Strategic Community Plan 2017-2027 is a blueprint for the future direction of the City and its community members. It represents a shared community vision and sets out long term strategies designed to strengthen and build on Greater Geraldton's unique assets.

## MAJOR GOAL: COMMUNITY

The Community Safety Crime Prevention plan contributes to the achievement of the major goal of community, which aims to value our sense of community, our small town feel and the lifestyle opportunities of our coastal location and bushland.

## OBJECTIVE 1.3 COMMUNITY HEALTH AND SAFETY

One of the four performance measures under this objective is directly related to the CSCP Plan. That is:

- 1.3.4 Encouraging initiatives to improve community safety.

## OBJECTIVE 1.5 RECOGNISE, VALUE AND SUPPORT EVERYONE

Four of the six performance measures under this objective are directly related to the CSCP Plan:

- 1.5.1 Supporting and strengthening community groups, organisations and volunteer services
- 1.5.2 Supporting young people to develop the skills to make valuable contributions to their communities
- 1.5.3 Providing community services and programs that support people of all ages, abilities and backgrounds
- 1.5.4 Supporting initiatives that enhance education and learning opportunities for all community members

“ Encouraging initiatives to improve community safety ”

# Local Programs and Initiatives

The City of Greater Geraldton has had many successes in the area of Community Safety and Crime Prevention. When addressing the new plan we must analyse and acknowledge past achievements within our community. Some notable programs and initiatives include:

- U-Turn Project 2016-2018
- PCYC Safe Space Program 2018
- Midnight Basketball 2007-2018
- Friday Night Football 2016-2018
- Return to Country Camps 2017
- Mitchell Street Community Centre 2016-2018
- Neighbourhood Watch engraving days 2017
- Continual expansion of the CCTV network

It must be recognised that many more programs and projects that have not been identified here, have taken place in the City of Greater Geraldton in recent years. Every project is considered valuable and every project has contributed toward creating a safer and more secure environment.

# Agency Cooperation

Some agencies contributing to the Community Safety and Crime Prevention Plan are listed below. It is recognised that the included agencies vary due to renaming, restructuring and the ever broadening scope of outcomes undertaken by the Community Safety and Crime Prevention Committee.

# Priority Strategies

The Community Safety Crime Prevention Committee held a workshop with assistance from the Office of Crime Prevention in June 2015 to identify priority strategies. The outcome of the workshop was the identification of priority areas for the committee to focus on. It is noted that some agencies and groups do not have influence or act across all parts of the City, therefore their contribution may be restricted to particular geographic locations or specific demographics. However, all contributions are important and through the ongoing effort and collaboration of all stakeholders, progress can be made and change achieved. The areas now considered by the CSCP Committee as those needing attention are as follows:

## **1. BREAKING CYCLES & BUILDING FUTURES THROUGH SOCIAL DEVELOPMENT**

*We will help to break the cycles of disadvantage, exclusion and isolation that lead to future offending behaviour.*

Early intervention strategies are critically important to preventing future offending behaviour in our children and youth. Through this focus area, we intend to support our partners in engaging those people in our community who do not traditionally have a voice in mainstream decision-making, and understand how best to support them to build positive futures.

## **2. CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN & MANAGEMENT**

*We will create environments where people feel welcome and safe.*

Crime Prevention through Environmental Design and Management, or CPTEDM (pronounced "septed"), is a multi-disciplinary approach to reducing and deterring criminal behaviour through the design and management of environments. It involves applying a range of design principles to a site to minimise the potential for that site to facilitate and support criminal behaviour. It also involves managing the site in a way that maintains those design principles over the long term so the site always reduces and deters criminal behaviour. The City will intensify the application of the CPTEDM approach and has embedded it as the 'business as usual' approach to designing and managing public facilities and spaces.

### **3. PREVENTING & REDUCING REPORTED CRIME**

*We will prevent and reduce the incidence of current reported crime*

Thanks to the intelligence provided by the WA Police databases, tracking the incidence and location of assaults, burglaries, graffiti, robberies and motor vehicle theft in the Greater Geraldton region is straightforward. We want to use this intelligence to become more proactive in preventing and reducing these crimes. The types and locations of crime change over time, and it is important that we work with residents to keep them informed and up to date with what is happening in their suburbs. We want to reduce the fear of crime, reduce preventable crime, encourage reporting, improve home and personal security and reduce the incidence of vandalism and graffiti on private and public property.

### **4. REDUCING THE HARMFUL USE OF ALCOHOL & OTHER DRUGS**

*We will reduce the risk of alcohol and other drug-related harm in the City of Greater Geraldton area.*

The harmful use of alcohol and other drugs results in considerable health, social, environmental and financial costs to the community. The City of Greater Geraldton is committed to working with key stakeholders and being involved in alcohol and other drug related crime prevention activities over the next four years.

### **5. ANTI-SOCIAL BEHAVIOUR**

*We will develop and encourage acceptable standards of behaviour in public places.*

Antisocial behaviour continues to be a major concern across the community and requires a community-wide approach to address the issue. It is often linked to the excessive use of alcohol and drugs and a lack of activities that meet the demands of all community members. On other occasions it relates to perceptions created by the media, or low tolerance to different groups or individuals behaving or looking differently. Efforts and coordinated strategies across agencies will be ongoing and directed at hotspots and some of the underlying issues for the behaviour, including virtual spaces on social media.

Two resourcing levels have been identified for initiatives listed under these priority strategies. Some initiatives can be undertaken within staff resources and existing budgets through the City and other party agencies, however some will require additional external funding, as outlined in the tables below. Applications for additional funding will be prioritised by the Community Safety and Crime Prevention Committee and carried out by the most relevant of the member agencies.

**“...become more proactive in preventing and reducing these crimes”**

# Acknowledgements

The City of Greater Geraldton recognises the support of agencies and individuals who contribute to making the community safer.

Specifically the City recognises the input of agencies that devote time to attend meetings of the Community Safety and Crime Prevention Committee, Integrated Offender Case Management Working Group meetings, Regional Human Services Managers meetings and other community committees.

Often the valuable volunteers of the community go unrecognised. While all these persons are not able to be identified, it should be noted that their contribution to the community is highly valued.

**Subject:** RE: Greater Geraldton Crime Prevention Committee Meeting

Hi Moana,

You can decide if my idea will fit into your agenda. I think they are great and will really help Geraldton in two different ways. It's what we need

Sorry it's quick but I am at work atm.

Idea 1)

**What:** Security camera / improve home security

Council sets up a rebate scheme that if home owners gets "approved" security cameras, security screens etc to improve home security.

**Rebate** – whatever council comes up with – gets taken off rates bill. Encourage people to pay rates to get rebate back.

**Shop local** – can only source these via local business. Not ebay etc approved list of businesses. When you submit the invoice to council

**Benefit:** Police will have more video footage, prevent crime – as it deterrent if harder or they will get caught, make community safer,

Police benefit: reduce crime, register security cameras might be one of the criteria on the police website

Idea 2)

**What:** Tourist attractions all over town. Crayfish or something like this to pretty up the town

**Cost:** Local business to sponsor and get recognition

**Local project for youth:** can design each crayfish

**Local business:** to make – keep money local

**Tourism:** have a map so tourist can go on a trail to find them. Fun for locals and tourist

Idea came from Post Macquarie NSW [Hello Koalas](#)

Many thanks

Regards
