Re: installation of 500 lux lights at Wonthella oval.

To whom it may concern,

My company, Event Nation, supports the Great Northern Football League in their submission for the installation of 500 lux lights at Wonthella oval.

In my dealings with high profile businesses, sporting organisations, Tourism agencies and marketing organisations it is essential to have high quality 500 lux lights to hold such events as a National Mining Expo's, Annual state Caravan & Camping Shows, Seasonal Boat Shows, State Farming Expos, Trade Fairs and Concerts and Festival that attract not only local community but also State, National and International Visitors to our region.

Such lighting would also have a major benefit to increased usability of the grounds throughout the summer months when it is ideal to hold extended or evening events.

My company would support fully this venue, as a venue of choice, should this initiative come to realisation. I also believe this would open up a world of many other unique opportunities that have the capability to attract new money into the town and region.

Please do not hesitate to content me to discuss this further.

Kind Regards,

Jodi Reilly

Managing Director
