

IBIS Shortcut – iPhone Instructions

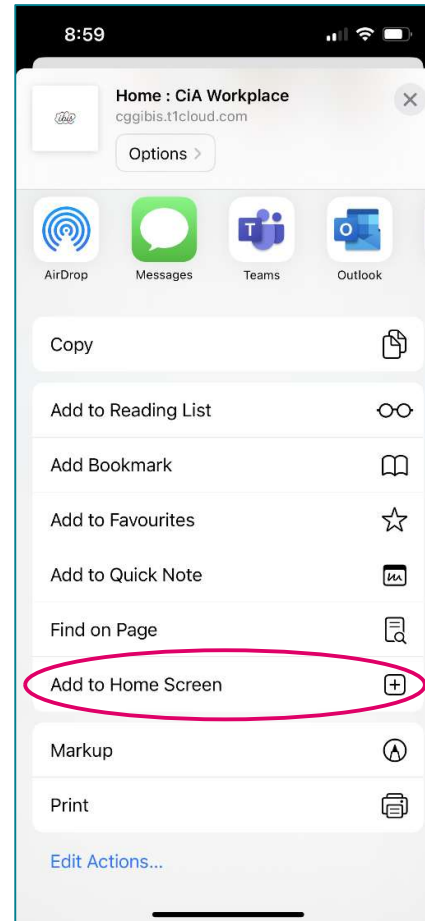

Open the camera on your device and point it at the QR code

A pop up will appear on your screen with a jumble of text, press this link

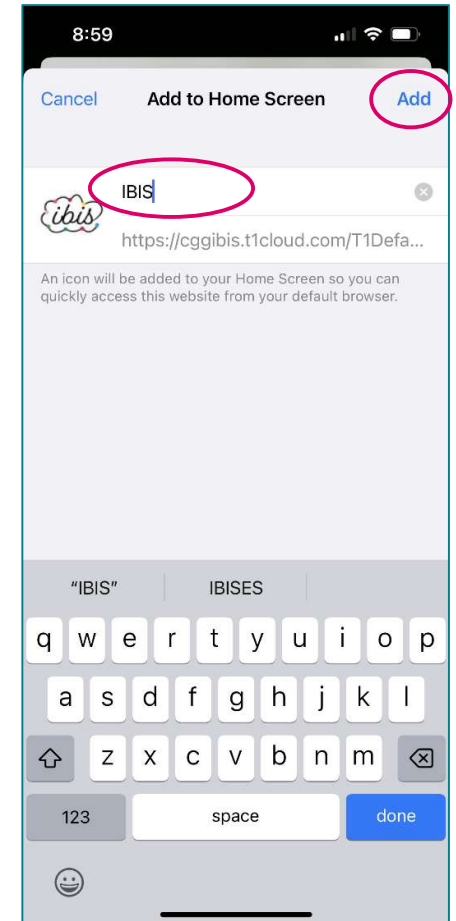

You will then be directed to the IBIS log in screen where you log in with your account details.

To save this URL as a short cut on your home screen, select the "share" icon at the bottom of your phone screen

Select "Add to Home Screen"

Replace the default text with "IBIS" and then select "Add".

The IBIS icon will now appear on your home screen!
