

Additional Information

I am passionate about my community and believe in giving back to the community that I live in. I have been involved in various committees over the last 17 years in a purely voluntary capacity including Wandina School P&C, Nagle Catholic College Board , Lotteries house Board of management, Midwest Multicultural Association, Local Drug Action group, Midwest Early years network, Pumas Basketball club, Midwest Indian Cultural society to name a few. I hope I can make a change by being on the Council raising genuine concerns of the citizens and being a voice for our residents. Firstly, I would like to address Youth well being as they are the future of Australia and focus on the priorities of this age group. Secondly, I would also like our homes and businesses to be safe from crime and our elderly be protected and be able to live without fear. My third key aim is to support locally owned businesses in economic growth and create opportunities for the region to grow and prosper. Local businesses support the youth with jobs as well as for our events and sponsor sporting clubs and community organisation, during this economic turmoil and inflation it is our duty to support these local businesses in growing for a better future. I hope I can play an integral part in making a secure and better future secure for the residents of City of Greater Geraldton. I believe we live in one of the best parts of the world.
