

Additional Information

What I Bring to the Role

As your Councillor, I offer:

Experienced Leadership: With nearly a decade of civic governance, I understand the complexities of local government and the importance of strategic, informed decision-making.

Community Focus: I have consistently championed inclusive consultation, ensuring that residents voices shape our city's future.

Proven Commitment: I take the responsibilities of Council seriously, showing up with purpose, preparation, and a deep respect for the role.

I have been part of a Council that has delivered responsible budgets that balance service delivery with financial sustainability.

These budgets have enabled us to maintain high service levels, renew vital infrastructure, invest in new capital works, and keep rate rises as low as possible, all while planning for the future.

My vision is for Geraldton to continue growing as a major regional city. A city that is vibrant, inclusive, and economically strong.
