I'm a proud Geraldton local, I was born here, educated here, worked here and have made the choice to raise our family here. I love our city and could not think of a better place to bring up our boy. I have a vested interest in helping make our home an even better place to live whilst working to keep rates as low as possible.

If elected to represent you, my goal is to be a conduit between our community and the executive. Anything that can be improved upon or anything you feel strongly about please let me know and I will do my best to help you be heard.

I bring a multi-faceted perspective to decision making. I have worked in the building industry, fishing industry & in retail. I have ties to farming, fishing, mining and sporting communities. I bring experience across several boards and have served to represent industry and community over the last 17 years. I know how important it is to support local businesses and know a thriving community is only possible with a thriving local industry.
