I have lived in Geraldton for 25 years and my family originated from this area. I am a single father, currently studying IT certIV, giving me ample time for the position if elected. From a background of Mining, Agriculture, Fishing and Electronics, I am running to encourage Transparency and Accountability as Mayor and have attended every Council meeting this year for public questions. My focus as Mayor will rein in spending on new projects and redirect funds to existing upkeep. Reduce the Mayoral allowance from 98k to 40k. Propose to freeze rates in 2024/25. Lobby for the State to fund a Jetty for Geraldton. I believe that all people should be represented on Council, not just people in business or senior positions, and will endeavour to continue the good work already done in making Geraldton a vibrant place to live. A Mayor should show respect to all people from all walks of life. Council should always consider outcomes for all residents in the CGG. I urge you to vote for change.
