Over my last two terms, I have led a stable Council with strength, that has delivered for Geraldton.

We first targeted streamlining operations and addressing decades of infrastructure underinvestment. We had to get our city back on track and with strength we delivered.

We are now moving into a phase where economic uncertainty awaits us, but through strong financial management, the Council I lead came out of Covid stronger; stared down inflationary impacts on our operations and is now setting up Geraldton for a period of strong growth into the future.

Our successful future will be built on a clear vision and will rely on strong relationships with State and Federal governments and industry which I have built.

This is a time for Strength and Stability, and I am standing on my record to deliver just that.

Let's Keep the Great in Greater Geraldton.
