

One (1) vehicle (Gspot) will be on the beach and one-two (1-2) vehicles (student) will be in carpark.

There will be no impact on existing vegetation or sand dunes.

Below is a plan of the area -

Z being the required set up area and Gspot vehicle carpark (30 mt x 50 mt)

X being the student entry point to water and Y being the student exit point from the water. Distance between X and Y being 50 - 80mt (length) and from shore line to waist deep water (wide).

Student carpark requirement 2 (max.) x average size passenger car.
