

**City of Greater Geraldton – Proposed Ice Cream and Dessert Kiosk – Foreshore Reserve
Schedule of Submissions**

Number & Date	Submitter	Nature of Submission	Comment	Recommendation
1 (20-10-2016)	Private submission	The submitter expresses concern that you are taking people and business away from the mall. The City should be working with the owners of those buildings in the mall to fill them instead of cluttering the foreshore.	Acknowledgment of objection..	Note the submission
2 (28-10-2016)	Private submission	Submitter concern is with the location of the proposed lease and considers that development of this nature should be consolidated into one or two areas and not spread across the foreshore. The submitter states that when the foreshore was originally designed there were clear guidelines as to the theme and aesthetics that should be pursued for any development. These were completely disregarded with the Dome development and have not been applied since. The idea behind a theme for a development is that future development can be supported without the “whole” looking ad hoc and prone to the trends of the day. A “shack” may be trendy today but in five years’ time may just look tacky.	The submitters comments are noted. The proposed sea container developments are considered temporary in their construction and may be removed within a 48 hour period at the conclusion of any given lease period or as determined by Council.	Note the submission
3 (28-10-2016)	Private submission	Questions the incompetence of City staff or deliberate attempt for the public consultation process. Questions the scheduling of the previous items for the Mullewa round meetings. Objects to the accuracy of the concept plans advertised.	Acknowledgment of objection.	Note the submission
4 (20-10-2016)	Champion Bay Surf Life Saving Club	The Champion Bay SLSC has major concerns that the proposed locations of the sea container will have a major impact on our beach and water based activities and the activities of other organisations that operate in this area.	Acknowledgment of objection.	Note the submission
