

Mayor
City of Greater Geraldton
PO Box 101
Geraldton. WA. 6530

**PETITION REQUESTING THE CITY OF GREATER GERALDTON
CONSTRUCT A NEW FOOTPATH ALONG MALEY WAY, BEACHLANDS**

We, the ratepayers and residents of Beachlands (aged 18+), request the City of Greater Geraldton to construct a new footpath along Maley Way, Beachlands, to replace the existing footpath that is in a state of disrepair (see Map 1).

The reasons are as follows:

- The path provides an important connection to Beachlands Primary School, which is frequented by young children on foot, on bicycles, and families with prams (see Map 1).
- The current path along Maley Way is cracking and crumbling, full of rubble, and has weeds growing throughout. This creates dangerous obstructions and an uneven surface (see Images 1 and 2).
- The current path ends suddenly on the Western side near Whitfield street, with no connection to another path or the road (see Image 3).
- The City of Greater Geraldton is regularly called upon to repair sections of the footpath, which they do by adding loose blue metal. This fills the holes, but adds to the rubble and obstacles in the short-term, and is costly and unsustainable in the long-term (see Image 4).

Beachlands, itself, is considered a low-socioeconomic suburb with higher-than-average single person households, including higher-than average single-parent families, elderly population (aged 65+), households with no registered motor vehicles, and a higher than average proportion of the population walking or cycling to work, compared with general Australian population¹. For this reason, access to safe, active transport corridors should be prioritised.

For further information relating to this matter, and for advising petitioners of the outcome of the petition, please contact:
