

Mayor  
Shane Van Styn  
PO Box 101  
Geraldton WA 6530

**We, the undersigned, residents of Drummond Cove, request that the City of Greater Geraldton, take the following actions regarding Drummond Cove Road.**

1. Lower the speed limit from 60 Kph to 50 Kph.
2. Install a speed mitigation system such as street chicanes.
3. Install clearly visible signage indicating that Drummond Cove Rd is **not a through road** and has **no access to John Batten Hall**.
4. Install a 360-degree CCTV camera at the beach parking lot at the bottom of the street.

**The reasons for this are as follows:**

1. Drummond Cove Road is a residential street and a 60 Kph speed limit is too high. There have been multiple instances of excessive speed by both licenced and unlicenced offroad vehicles.
2. Poor signage indicating Drummond Cove Road is not a through road, creating excessive traffic flow. This is by those enroute to John Batten Hall, particularly backpackers, emergency vehicles and the public.
3. There have been multiple instances of wildlife and pets being killed by speeding vehicles. A hooning vehicle mounted the kerb and nearly hit a six year old child.
4. Behaviour by some members off the offroad / biking community has been disruptive to the wellbeing and safety of residents. At times, there are multiple instances of vehicles and offroad bikes doing donuts, excessive engine revving and destroying council property at the beachside car park.
