<p>for an Elevated plan. Requirements to begin an Elevated plan will be a structured workshop with community consultation and a structured planning session that will the Committee members. This process will ensure the City is gaining the correct alignments and goals over the next few years prior to implementation of the revised RAP.</p> <p>3.3 Discussion Innovation to workshops and date</p> <p>RE advised a structured planning workshop with the Committee members will be required a month before the community consultation to set up the appropriate frame work. Once the initial decision is made with regard what level RAP the Committee would like to achieve, a prospective date can then be set for the planning workshop to gain initiatives for the revised RAP.</p> <p>ER suggested using RAPs that work well from other organisation for samples to ensure all areas are coved in the City's RAP. RE and NG to progress a best practice summary of Elevate RAP's from other organisations for presentation to the Committee as examples.</p> <p>3.4 Broader Community Consultation</p> <p>LR raised a point regarding the structure of the community consultation process, she advised the approach will need to be altered in such a way that workshop can be done in the community and held in areas where members have ease of access to attend. RE noted that will be taken into account when the workshop is being structured to ensure the best result from the engagement process for the revised RAP.</p>
