

Mayor
City of Greater Geraldton
PO Box 101
Geraldton WA 6530

We The residents and ratepayers of the City of Greater Geraldton call on the council to reject any increase in rates and look for savings in the City's budget instead

For the following reasons, Residents and ratepayers are already under financial pressure from rising living costs, taxes, insurance, power and everyday expenses. Any increase in council rates would place further strain on families, small businesses and farmers, many of whom already receive limited direct services in return. At a time when households are tightening their budgets, the City should instead identify savings, review spending priorities and deliver better value for ratepayers.
