Hi Laura,

Thank you for returning my call and providing your email contact details.

As discussed on the telephone Pilbara Resource Group (**PRG**) have a mining project in Wiluna and we are currently mining Iron Ore and transporting the ore to the Mid-West Port in Geraldton. The C4 Project (**Project**) has a 21mt ore body and we anticipate a 8-10 year mine life for the deposit.

Given the Project is a stranded asset we are looking at all options to optimize the project and as such we have identified the Mullewa camp as a great halfway point for the project. We envisage the truck drivers will pull into the siding just out of Mullewa and be transported to and from the camp for changeover by a light vehicle (ute/bus). Once the truck drivers arrive in camp they will be provided with meals and accommodation for their swing. Our intention is to enter into an agreement with the City of Greater Geraldton whereas PRG will renovate the existing Mullewa camp to provide accommodation and messing for our truck drivers.

PRG has extensive experience in both the construction and renovation of camps, PRG recently completed (5) separate camp renovation projects for Rio Tinto and is currently engaged by Atlas Iron to relocate (2) camps and build the McPhee Creek Camp in the Nullagine.

We have already inspected the Mullewa Camp and have a understanding of what is involved/required to make the camp operational again. We also understand the previous arrangement with Mount Gibson and are looking for a similar arrangement.

Let me know if you need any further information.

Best Regards,

Scott Dryland Director

Subject: Former Mullewa Camp Site

Hi Scott

Thanks for the chat earlier.

If you could please provide as much information as possible regarding your proposal to lease and renovate the Mullewa Camp Site, I can then forward this to management for their consideration with the view to report to Council.

If you have any queries in the meantime, please don't hesitate to contact me directly on 9956 6995.

Kind regards
Laura MacLeod
