

Appendix 29

Options for the Spalding Horse and Pony club relocation that have been explored include:-

- a. The Webber Park Reserve has suitable facilities such as the hall and toilets. However the remaining open space is of insufficient size to cover the current operations of the Horse and Pony Club;

- b. Flores Road redevelopment precinct. This is the recommended location for the Club based on developing and utilising shared club and other facilities with Baseball and other Junior Sports;
- c. Various sites within the Chapman Valley identified by the Shire of Chapman Valley as being suitable for and targeted at equestrian based activities. Such a move would still be eligible for the relocation funding; OR
- d. In addition to these above sites, the City is in liaison with the Club to identify other possible suitable locations identified before expiration of the existing lease in 2014.
