CITY OF GREATER GERALDTON

SPECIAL MEETING OF COUNCIL HELD ON TUESDAY, 29 JANUARY 2013 AT 5.30PM CHAMBERS, CATHEDRAL AVENUE

MINUTES

DISCLAIMER:

The Chairman advises that the purpose of this Council Meeting is to discuss and, where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting. Persons should be aware that the provisions of the Local Government Act 1995 (Section 5.25(e)) and Council's Standing Orders Local Laws establish procedures for revocation or recision of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The City of Greater Geraldton expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a Member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

4 RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE

Nil.

5 PUBLIC QUESTION TIME

Questions provided in writing prior to the meeting or at the meeting will receive a formal response.

Mr Brian Taylor, PO Box 7129, Geraldton WA6530

Question

I refer to the response to my original question regarding the provision of diagonal parking in the Post Office car park.

The response given regarding July consultation is not true as consultation was requested to be completed by 24th May, 2013. Regarding reporting to council, Neil Arbuthnot should have been aware that Council endorsement was not required before commencing this exercise if he was doing his job correctly. In fact if we take off the month in June (consultation period) and take off the fact that he did not have to go to Council then not only should the work have been done before the end of October but even sooner. I ask Neil Arbuthnot to provide a date by which this work will be completed.

Response

The consultation period officially closed on 28 May 2012. The City is committed to undertaking community consultation on projects and this would

have been carried out regardless of whether Council reporting was required or not.

At the time, October 2012 was nominated as the earliest realistic time that works could be undertaken. Whilst the work is minor in nature, it requires City resources to carry out the procurement of services and manage delivery.

These resources were not available at the time due to commitments for other projects.

The project was subsequently reprioritised, which is not uncommon in works programming, to avoid the pre and post-Christmas peak shopping period.

At the time of writing, the work is scheduled to be undertaken on Sunday 20 January 2013. Adjacent businesses have been notified accordingly.

Question

Regarding my question regarding Boyd Street signage - I have it in writing from Main Roads that City of Greater Geraldton is responsible for all signage within the City and not Main Roads. Main Roads may, at the request of the City of Greater Geraldton, perform the task of sign erection. Main Roads also advise that it was City of Greater Geraldton that erected the "wrong" sign in Boyd Street and not them. When is this debacle going to end and the correct signage be completed? Did Neil Arbuthnot meet with Main Roads at the request of Councillor Neil McIlwaine at the last Council meeting and what was the outcome of these discussions?

Response

Both the City of Greater Geraldton (CGG) and Main Roads Western Australia (MRWA) erect road signage within the City's boundary. The City has delegation to approve and erect most standard signage, including "warning" and "guide" series.

The City does not have delegated authority to change speed limits or determine speed limit sign locations. The City cannot approve or erect any regulatory signage (e.g. Speed limit, Stop, Give Way) without MRWA approval, with the exception of regulatory parking signs, which are subject to Council approval under the local law.

The City is therefore not responsible for all signage within the City and MRWA have advised the City that they are not aware of their office issuing the specific advice to which you refer. Further, MRWA confirm they installed the "Reminder 50 km/hr" signs in Boyd Street, not the City.

Despite not requiring the City's approval, MRWA, as a courtesy, consulted the City prior to the "Reminder 50 km/hr" signs being erected and the City supported the initiative.

The Director of Community Infrastructure did not personally meet with MRWA, however senior staff met with MRWA on behalf of the Director. The meeting

took place on the 3 January 2013, subsequent to the Council meeting, to discuss the matter and a summary of the discussion follows:

- MRWA attended court over this matter.
- Anderson Street is 60km/hr, Boyd Street (east of Anderson) is 50km/hr.
- MRWA assessment found Boyd Street to be classified as "Built up" supporting the 50km/hr general speed limit.
- In December 2001, the general speed limit in Boyd Street was reduced from 60 km/hr to 50km/hr.
- In 2001, the City was required to nominate roads to retain the 60km/hr limit. Boyd Street was not nominated.
- The City can install warning series signage, not regulatory.
- Both MRWA and the City erect certain types of road signage (as previously outlined) within the City's boundaries.

The City has addressed the issue as requested. The City concurs with the MRWA assessment that Boyd Street is classified as "Built-up" and will not be applying to MRWA to consider changing the speed limit to 60km/hr nor to erect any speed limit signage.

If an urban road has no speed limit signage installed, the default speed limit of 50km/hr applies.

Question

This matter will not go away until it is dealt with in a proper and professional manner by all concerned including City of Greater Geraldton and Main Roads who need to get their act together and erect the correct signage. On 20th September, 2012 a sign was erected at both ends of Boyd Street – "Remember 50 in a built up area" which has the adverse effect of encouraging motorists to speed seeing 404 metres of bush in 594 metres of street straight into a speed trap.

I would also like to bring to everyone's attention to the attached Main Road's document "Application and Approval Guidelines – Speed Zoning – Superseded. This guideline as you can see was revised and approved on 27th September, 2007. Item 3.1.3.3 Speed Environment Roadside Development clearly identifies

PARTIALLY BUILT-UP.

<u>Description</u> – Residential, business or industrial development ranging from 25% to 90% of the road frontage on both sides of the road. This is typical of the fringes to major urban centres and rural town sites. (describes Boyd Street perfectly)

<u>Speed Limit</u> – The appropriate speed limit is 80 km/h but 60 or 70 km/h may be appropriate if there is extensive vehicular or pedestrian activity on the road.

Boyd Street clearly fits this description (see map attached) and in fact, due to lack of pavements and street lighting, does not have any pedestrian activity.

Response

This matter has been dealt with by Main Roads WA and the City of Greater Geraldton in a proper and professional manner. Taking into account the Provision of Road Traffic Code 2000 which overrides the Main Roads WA Guidelines (Application and Approval Guidelines Speed Zoning – Superseded approved on 27 September 2007 and has since been updated in 2010 with substantially the same content) referred to by Mr Taylor. The Road Traffic Code 2000 states that:

Built up area means the territory contiguous to and including any road - (a).....; or

(b) which is built up with structures devoted to business, industry or dwelling houses at intervals of less than 100m for a distance of on half kilometre or more.

Main Roads WA have assessed Boyd Street as being in a built up area based on the above definition. There are 10 properties having access to Boyd Street with significantly more direct access points to the properties from Boyd Street. Boyd Street, as set out in My Taylor's numerous correspondence to the City on this matter is 594m in length based on this and this alone, the definition part b for built up areas for the Road Traffic Code 2000 is applicable.

It is reiterated that the Road Traffic Code 2000 overrides any guidelines, which are simply a guide without any statutory backing. It is also noted that Boyd Street is a bus route and complaints have been received by Main Roads WA from the bus driver concerning speeding vehicles.

Main Roads WA contacted the City and requested that a traffic counter be placed on Boyd Street to measure the traffic volumes and speeds during the Christmas break before school starts and will remain in place until after the start of the 2013 school year.

It is the City's opinion based on the evidence before it that the 50km/h speed limit for Boyd Street is appropriate given all the circumstances.

A formal response has been sent to Mr Taylor.

Mr Ray McNaught, 257 Fourth Street, Geraldton

Question

Royalties for Regions – Funds spent in Spalding Park Grant was \$2 Million.

Why would the City of Greater Geraldton not have realised on 2 million dollars worth of land within 220m of the subject sporting facilities?

Response

The \$2 Million grant was specifically a Department of Sport and Recreation and Royalties for Regions grant for Eadon Clarke for both the ovals and lighting, which the City applied for. This was a specific grant for that purpose. If it had come for a different source then the money would not have been able to be allocated elsewhere. It is based on a competitive bid, meeting the guidelines set by the Department, of which the City was successful in receiving the funds for that project.

Question

Disaster/short sightedness in Willcock Drive, Olive Street development. 2 people questioned about minimal car parking bays. My thoughts – not on their agenda so development done. The City of Greater Geraldton's consultant on the chapman road foreshore remarked when shown the Willcock Drive location – her comment, absolutely ridiculous just like a proposal in the suburb in which I live. So can you see it's not only Geraldton that has disastrous planning!

Response

The design for the area has been comprehensively tested by both the environmental and the planning consultants that put together the concept. They made sure it was sustainable. The City obtained the relevant approvals from the Department of Environment & Conservation and the Department of Planning. The parking is being expanded and is planned to be more that the proposed 20 bays. There will be a roundabout entry which will be used as traffic control to ease those that speed along Willcock drive. This will provide a new entry into the area and into the surf club which will have additional car parking. The car park is rarely used to any considerable amount, therefore this will be more than adequate for that purpose.

The open space was identified in that corner as it has the greatest level of access to the middle. In the middle there will be boardwalks and decking around the area to provide accessibility. It will be an ephemeral wetland which will fill during periods of heavy rainfall. There are opportunities for people to engage in that area and access it quite well.

Ms Jenny Beeck, 2 Batten Place, Drummond Cove.

Question

I am asking that the affected residents of low income like myself, have the above ruling rescinded. I have no chance of being able to obtain a loan to build a house, due to my age and low income. (Plus I am a sole parent) My eldest son doesn't want to see me homeless, and wants to try and build a house for me. He and his wife already have a mortgage in Perth. What would make it possible, is to be able to build it now, rent it out, and then move in December 2016, when the cottages are due for demolition. Otherwise, my younger son and I have nowhere to go. I have always wanted to see my days out at Drummond Cove, as I should be able too. Especially as the Dome restaurant was approved on land as close to the ocean as I am.

Response

As compensation to the West side leaseholders of Drummond Cove, Council made available to the lessees heavily discounted lots on the east side of Whitehill Road.

The Council stipulated certain conditions with the purchase of these lots. These conditions were resolved by Council on 22 January 2005.

In part it resolved the following.

- (c) Leaseholders are not to sub-let premises where the leased property and new residence are fit for habitation at the same time; and
- (f) The City of Geraldton-Greenough be given the option of purchasing both east and west leaseholders lot at cost plus CPI should owners wish to dispose of these properties prior to 31 December 2016. In the event of this occurring the leaseholders lease would be terminated upon sale of the lot;

If the lessee were to build a home on the lot suitable for habitation, then the lease on the leased lot would be required to be surrendered.

Mr Andrew Outhwaite, 5 Onslow Street, Geraldton

Although I have been involved in many of these initiatives in my professional and community roles these questions are personal. Personally, I love this Council, City and many of the things that are happening. The questions below reflect an interest in Council's role in enabling our whole community be to assess our progress towards our aspirations.

OP0021 - 2011/2012 Annual Report for the City of Greater Geraldton

Question

The annual report looks good and describes a lot of wonderful, laudable activities initiated and supported by Council. However it is hard to understand whether the Council and our community are actually achieving outcomes i.e. is our lifestyle, sustainability or creativity actually improving. I am curious as to how Council as a whole and individual Councillors assess whether our city and community are moving forward/getting better. If, when and how will Council articulate and report on outcomes achieved, rather than simply reporting on a range of activities undertaken and initiatives started? Or, if not outcomes achieved, at least benchmark Geraldton and the Council against others in some of these key areas e.g. liveability, sustainability.

Response

The City is working with CUSP to develop outcome indicators for the Community Strategic Plan which will show how the City is achieving its goals and whether there has been improvements made over the year. These will be reflected in future annual reports.

OP0023 - CP055 - Geraldton City Centre Vibrancy Policy & Strategy

Question

The vibrancy strategy looks good and has some great ideas. It is not clear, however, what vibrancy 'is' and how the success of the strategy will be measured. My concern is that this strategy doesn't have a strong sense of a) what success would look like or feel like, or b) how the range of suggestions could be prioritised to achieve that success. If, when and how will Council (or Council and partner organisations) choose which of the 'outcomes' (describe in the strategy summary) to prioritise, measure and publicly report against?

Response

The Geraldton Future Governance Alliance will work with the City and relevant stakeholders to recommend the priorities and key performance measures for the City Vibrancy project.

OP0022 - Adoption Of Strategic Community Plan

Question

The strategic community plan is the result of a lot of consultation and I applaud the Council for its foresight and persistence in enabling a new civic culture and positive self-identity for the region and its citizens. I hope that in ten years' time we can celebrate many achievements as a result of strong leadership. I fear that there is not a strong sense of 'priorities' and a risk that Council is committing to doing 'everything' or even worse 'anything'. Can you describe the process by which these aspirations are prioritised and decisions are made about what goes into the corporate business plan, operation plans and the annual budget?

Response

As part of the Integrated Planning Framework, Council is required to identify the priority strategies which it has done and these will be advertised for public comment this week. The City teams will then work on the business plans which will address these priorities and these will form the Corporate Business Plan. Through this process, Councillors will determine whether the actions to be carried out by the City address the priorities and adjust if necessary.

Question

The "Aspirations" and "Measures" don't seem to be aligned for many of the areas of aspirations (e.g. Culture, Environment, Economy). That is, the measures as stated wouldn't give any indication of whether the aspirations were actually being achieved. Who, how and when would be involved in setting, monitoring and reporting on the 'Measures' and whether Council and our community is achieving its aspirations?

Response

This has been recognised and therefore, as in Q1, the City is working with CUSP to develop meaningful outcome based indicators. Over the next 2

months workshops will be held with councillors to determine measures which are more aligned with outcomes.

Question

Will council have a process by which you assess or audit the effectiveness of the expenditure of the annual budget in terms of its contribution to the measures in the strategic community plan?

Response

Yes, the City will align the activities in the corporate business plan with its budget and the strategic community plan and will report on these.

Mr Sean Hickey, PO Box 2966, Geraldton WA6531

Being a frequent 'beach goer' leaves me with many events and experiences to consider.

I couldn't help but be amused at the efforts put into what was essentially a fruitless exercise – removing sand from a beach as fast as it was blowing back.

I observed over a number of days sand being removed from under four shelters and taken to the waters edge to be washed away by an incoming tide. Be assured there is a lot of sand to remove as it caves in from the surrounding dune profile.

Could this be happening again I asked myself recalling last year's similar event? Of course this is a funny issue. How could grown men be engaged in such a futile action over many days?

Of course the inevitable happened, all but one of the shelters if full of sand again. So a lot of time and money have been blown away. A week to ten days and the shelters are full.

Was I seeing a master class exercise in comedy, you bet, and it was repeated in similar fashion along the orange dune rehabilitation fence in front of the surf club.

Over another number of days grading and excavation was carried out on both sides of the fence. Clearly one day then another shouldn't stop the sand coming and rebuilding, so it was decided to excavate the other side of the fence about 2 meters wide. Did that work? Well, for a couple of days – the location is well on the way to be back to normal.

Why was this costly futile exercise performed at all? Will there be more repeats of this gross waste?

The orange fence was installed to repair a dune previously flattened by the surf club with little concern. Why remove the re-establishing dune base?

Why take sand from the dune and build ramps and push it into the sea?

I have previously asked similar questions about seaweed removal and boxthorn removal and basically 'been fobbed off'.

The ball is in your court. Is there any Councillor willing to take on this task?

What is the cost of beach work of the nature referred to?

Approximately three or more weeks have been spent doing beach work at the back beach. There are various dated photo shots to confirm statements made her.

Will we are ratepayers get information on costs? When?

I have previously asked for costings relating to boxthorn removal, sea wrack removal and costs associated (per day and per hour) in regard to remedial beach work but I am yet to receive a reply. When will this be forthcoming?

Response

Sand clearing is an operational matter. The City needs to control sand movements for public access and for the shelters as they are regularly used by the public. If they are not cleared they are inaccessible, therefore the City has a regular programme for this operation. It is noted that they regularly fill up with sand, but there would be a greater complaint from the public if they didn't have the opportunity to have shaded structures. This is regularly raised with the City about the opportunity to enjoy the beach in a shaded environment. It is a difficult environment because of the sand movements, but it is an expectation of the community.

With regard to the access ways in terms of the Surf Club, there is regular use of City vehicles or contract vehicles to push sand to ensure the area is accessible. This will always occur as there is no solution in a highly mobile beach sand environment, other than that, to ensure vehicle access. The community would not accept that the Surf Club would not be able to take their vehicles down to the beach to undertake their prime activity on that beach.

The City has an allocation of \$150,000 for coastal erosion and management. All of those works, including emergency works, are funded from that account. That total amount is rarely spent.

The City has allocated \$25,000/year for box thorn removal.

Mayor I Carpenter declared a direct financial interest in Item Cl035 - RFT22 1213 – Civil Plant & Equipment – Wet and Dry Hire as several of the companies are clients of the company that he manages.

9 SIGNIFICANT STRATEGIC MATTERS

OP0022 ADOPTION OF STRATEGIC COMMUNITY PLAN

AGENDA REFERENCE: D-13-02143

AUTHOR: C Wood, Director of Operational

Performance

EXECUTIVE: C Wood, Director of Operational

Performance

DATE OF REPORT: January 2013 FILE REFERENCE: GO/13/0001

APPLICANT / PROPONENT: City of Greater Geraldton

ATTACHMENTS: Yes

SUMMARY:

The purpose of this item is to present the City's Strategic Community Plan for Council's consideration. This plan was adopted in principle by Council at its October 2012 meeting and public comment has been sought.

PROPONENT:

The proponent is the City of Greater Geraldton.

BACKGROUND:

Amendments to the Local Government Act have resulted in local governments having to develop and implement integrated strategic long term plans.

In October 2011, Council adopted an interim strategic community plan in accordance with the Department of Local Government's integrated strategic planning transitional arrangements (s. 5.56 of the Local Government Act, regulation 19DB).

Since then, the Department has released the Integrated Planning and Reporting Advisory Standard which provides new criteria for local government strategic community plans, corporate business plans, key informing strategies and Annual Reports. Under the advisory standard, Local Governments are required to have a strategic community plan and corporate business plan adopted by Council by 30 June 2013.

Once this plan has been approved and adopted by Council it will allow the City to commence development of its corporate business plan. Together, these two documents will form the City of Greater Geraldton's Plan For the Future.

COMMUNITY CONSULTATION:

Extensive community consultation was undertaken as part of the 2029 and Beyond project. This document is based on the project's two years of deliberative consultation and reflects the vision, goals and aspirations of the community.

The City sought public comment on its draft Strategic Community Plan in November/December 2012. No comments were received. Two information sessions were held - one in November and one in December 2012.

COUNCILLOR CONSULTATION:

Councillors attended a strategic planning workshop on 20 September during which the content of the document was developed.

Council provided in principle adoption of the draft strategic community plan at a Special Meeting of Council held in January 2013.

STATUTORY IMPLICATIONS:

Section 5.56 of the Local Government Act 195 - Planning for the future.

Part 5, Division 3, 19C of the Local Government (Administration) Regulations 1996 – Strategic community plans, requirements for (Act s. 5.56).

POLICY IMPLICATIONS:

The strategic community plan has been developed in accordance with Council Policy 005 – Integrated Strategic Planning Framework.

FINANCIAL AND BUDGET IMPLICATIONS:

The cost of this project is included in the current budget.

STRATEGIC & REGIONAL OUTCOMES:

Strategic Community Plan Outcomes:

Goal 5: Leading the Opportunities.

Outcome 5.1: Leadership and Good Governance.

Strategy 5.1.3: Implement business, governance, legislative and

compliance frameworks

Regional Outcomes:

The strategic community plan will enable the City to provide relevant and realistic community benefits to the region.

ECONOMIC, SOCIAL, ENVIRONMENTAL & CULTURAL ISSUES:

Economic:

The implementation of the strategic community plan will have positive effects on the regional economy by supporting key initiatives that promote Greater Geraldton.

Social:

Through this plan, the City aims to set long term initiatives to support the sustainable growth and development of the community.

Environmental:

The strategic community plan incorporates the City's environmental sustainability practises and the implementation of local environmental sustainability projects.

Cultural & Heritage:

The plan acknowledges the area's cultural diversity and aims to protect its historical significance.

RELEVANT PRECEDENTS:

There are no relevant precedents.

DELEGATED AUTHORITY:

There is no delegated authority.

VOTING REQUIREMENTS:

Absolute majority is required.

OPTIONS:

Option 1:

As per Executive Recommendation in this report.

Option 2:

That Council by Absolute Majority pursuant to Section 5.56 of the Local Government Act 1995 RESOLVES to:

- 1. RECOMMENCE the planning process and develop a new Strategic Community Plan;
- 2. MAKES the determination based on the following reason:
 - a. To be determined

EXECUTIVE RECOMMENDATION:

That Council by Absolute Majority pursuant to Section 5.56 of the Local Government Act 1995 RESOLVES TO:

- ADOPT the City of Greater Geraldton Strategic Community Plan; and:
- 2. AUTHORISE the Chief Executive Officer to give public notice of the adoption of the Plan.

COUNCIL DECISION

MOVED CR VAN STYN, SECONDED CR BENNETT

That Council by Absolute Majority pursuant to Section 5.56 of the Local Government Act 1995 RESOLVES TO:

- 1. ADOPT the City of Greater Geraldton Strategic Community Plan; and;

DATE OF REPORT: 12 December 2012

FILE REFERENCE: FM/3/0003

APPLICANT / PROPONENT: City of Greater Geraldton

ATTACHMENTS: Yes

SUMMARY:

The purpose of this report is to seek Council's adoption of the 2011/2012 Annual Report for the City of Greater Geraldton.

PROPONENT:

The proponent is the City of Greater Geraldton.

BACKGROUND:

The 2011/2012 Annual Report (attached) has been prepared in accordance with Section 5.53 of the Local Government Act and includes the audited Annual Financial Report.

The Annual Report highlights the City of Greater Geraldton's achievements in 2011/12 and notes the major projects which will be undertaken in 2012/13 in accordance with the Plan for the Future.

The Audit Committee has reviewed the Annual Financial Report and Audit Report and has discussed any issues regarding the audit of the finances with the Auditors and is satisfied that all issues have been finalised.

COMMUNITY CONSULTATION:

Once the Annual Report has been adopted by Council, the CEO will give local public notice of its availability to the public and will call an annual electors meeting to be held on 18 February 2013.

COUNCILLOR CONSULTATION:

The Audit Committee has reviewed and recommended the adoption of the Annual Financial Report at its meeting held on 18 December 2012.

STATUTORY IMPLICATIONS:

Section 5.53 of the Local Government Act requires the preparation of an annual report and details what has to be contained within.

Section 5.54 requires that the Annual Report for a financial year be accepted no later than 31 December after that financial year or within 2 months of receiving the auditor's report. Council is required to hold an Annual Electors Meeting within 56 days of acceptance of the Annual Report. Pending adoption of the Annual Report, the Annual Electors meeting will be scheduled for 18 February 2013.

POLICY IMPLICATIONS:

There are no policy implications.

FINANCIAL AND BUDGET IMPLICATIONS:

There are no financial or budget implications.

11 STRATEGIC & POLICY MATTERS

OP0023 CP055 - GERALDTON CITY CENTRE VIBRANCY POLICY & STRATEGY

AGENDA REFERENCE: D-13-02173

AUTHOR: K Godfrev, Manager Economics

Development and Innovation

EXECUTIVE: A Brun, Chief Executive Officer

DATE OF REPORT: 17 January 2013

FILE REFERENCE: ED/5/0008

APPLICANT / PROPONENT: City of Greater Geraldton

ATTACHMENTS: Yes

SUMMARY:

The City has received a draft Geraldton City Centre Vibrancy Strategy from the appointed consultants. Essentially the Strategy is intended to provide a strategic focus and a framework for the City and other relevant organisations to commence the physical delivery of key initiatives that build on and further catalyse change within the city centre.

This report recommends the adoption of the Policy and Strategy as a draft for the purpose of public advertising.

PROPONENT:

The proponent is the City of Greater Geraldton.

BACKGROUND:

The Council considered the matter at is meeting of the 18 December 2012. Council made the following deferral resolution

MOTION

MOVED CR THOMAS, SECONDED CR MCILWAINE

That Council by Simple Majority pursuant to Section 5.20 of the Local Government Act 1995 RESOLVES to:

- 1. DEFER to adopt the 'Geraldton City Centre Vibrancy Strategy' and the 'Geraldton CP055 City Centre Vibrancy Policy'; and
- 2. MAKES the determination on the following grounds that:
 - a. Seeks information on who and how the 1% of rate revenue be spent and take back to the Concept Forum to discuss further.

CARRIED 11/4

Subsequent to the meeting and following receipt of additional information, several Councillors indicated an interest in reconsidering the matter at the Special Meeting of Council.

In recent years the City of Greater Geraldton (CGG) has invested substantial time and resources in commissioning consultant studies that examine the key issues that influence city vibrancy, such as tourism development, strategic and community planning, deregulation of shopping hours and various urban

design and planning reports. Relevant findings of these studies have been distilled into this City Centre Vibrancy Strategy.

The Strategy focuses solely on increasing vibrancy of Geraldton's City Centre. It is intended to provide a strategic focus for the work previously completed and a framework for CGG and other relevant organisations to commence the physical delivery of key initiatives that build on and further catalyse change within the City Centre.

In developing this Strategy, CGG together with the appointed project consultant, Place Match completed a literature review of relevant studies and strategies, conducted site tours of the study area and met with key stakeholders, Councillors and community influencers to gain further insight into opportunities and barriers for implementation of vibrancy initiatives. Details of this City Centre Vibrancy Strategy as well as feedback gathered from respective stakeholders and community influencers are attached as per Appendix I & II included herewith.

Council, at its December meeting, resolved to defer the adoption of this item in order to receive further information on how the 1% of rate revenue will be spent. An information session was held on 22 January 2012 which provided information to councillors.

COMMUNITY CONSULTATION:

CGG and its consultants had conducted a Stakeholder Engagement Workshop with a number of stakeholders together with Councillors, Executives and the management team of the City in January 2012 prior to commencing the Strategy.

On Friday 27 April 2012 the overall Vibrancy Strategy was presented to the same key stakeholders that participated in the January forum. The aim of the April meeting was to discuss the Strategy and seek feedback, suggestions and inputs. These were gathered and recorded as per the Appendix II included herewith.

COUNCILLOR CONSULTATION:

The Councillors were invited to attend an initial Stakeholder engagement Workshop in January 2012.

Councillors were also invited to a subsequent Stakeholder Engagement Workshop held on Friday, 27th April 2012 when the overall Vibrancy Strategy was presented. Previous copies of the Strategy have been provided to Councillors.

An additional information workshop was held on 22 January 2013.

STATUTORY IMPLICATIONS:

There are no statutory implications.

POLICY IMPLICATIONS:

The Strategy has a number of linkages with town planning in areas of land use, layout and planning and contains strategies such as:

- Focus planning and development efforts around key destinations, focal;
- points and attractions;
- Tailor uses and activities to key target audiences within the CBD;
- Optimise strategic sites;
- Leverage the planning framework; and
- Establish movement corridors.

FINANCIAL AND BUDGET IMPLICATIONS:

To support the Policy/Strategy outcomes, the City proposes an equivalent of 1% of rate revenue towards funding and implementing the recommendations and outcomes of the Strategy. This will be subject to annual budget consideration by Council, and availability of funds in compliance with Council's Financial Sustainability Policy.

It is also proposed that an Economic 'Incentives' Policy which will looks at options such as 'rates holidays', lease discounts, subsidies or other measures which can be used by Council on an equal basis to encourage new developments on economic development (job creation) projects be developed.

Relevant actions and priorities will be considered for funding during the budget process. Inclusion in the policy does not assure or commit the funding.

STRATEGIC & REGIONAL OUTCOMES:

Strategic Community Plan Outcomes:

Goal 2: Opportunities for Prosperity.

Outcome 2.2: Greater Geraldton as a leading regional and rural

destination.

Strategy 2.2.4: Facilitate the Geraldton City Centre as the heart of the

region.

Goal 5: Leading the Opportunities.

Outcome 5.1: Leadership and good governance.

Strategy 5.1.4: Establish and enhance Greater Geraldton's regional,

national and international profile.

Regional Outcomes:

This strategy sets out a roadmap for the City to be become a thriving Regional City for the community to live and work as well as to attract more tourist arrivals by providing great variety of shopping, dining and entertainment

experiences. This initiative is also in line with the City's vision to 'transform Geraldton into a world class, regional city of over 100,000 residents over the next two decades whilst creating a liveable community and vibrant region.'

ECONOMIC, SOCIAL, ENVIRONMENTAL & CULTURAL ISSUES:

Economic:

There are positive economic outcomes to be derived with the implementation of the City Vibrancy Strategy. These outcomes include:

- Geraldton's strategic position in the mid-west is leveraged for businesses and as a destination of choice for investment in Western Australia;
- A strategic and consistent image of the city centre is promoted across all communications platforms locally, regionally and internationally; and
- The city centre becomes the 'heart' of Geraldton through a series of interconnected destinations and attractions that respond to end user needs thereby encouraging people and visitors to visit more often and tourist to stay longer.

Social:

There is a possibility of significant social outcomes with the implementation of the City Vibrancy Strategy. These outcomes include:

- The city centre is to be a comfortable, safe, welcoming and accessible space for residents, workers and visitors;
- Improved activation, safety and community ownership of the city centre through passive surveillance; and
- People will enjoy a fun, fresh and interesting space enhanced through a variety of activities and events.

Environmental:

The City Vibrancy Strategy focused strongly on improving overall amenity i.e. in creating pedestrian friendly, attractive and comfortable environments that people will be drawn to, as well as directing pedestrians via desired movement corridors and between key attractions. There will also be improved landscaping, flower pots, good shade, drinking fountains and water misters, along with comfortable / interesting seating will help to soften the environment and make the city centre particularly the foreshore and Marine Terrace an attractive retail alternative to the shopping centres.

Cultural & Heritage:

As per the City of Greater Geraldton Culture, Arts and Heritage Business Plan, the City Vibrancy Strategy continues to encourage cultural activities in the public realm and make it easy and convenient for community groups and corporate organisations to manage events in the city centre.

OP0025 DELEGATION TO CHINA AND STRATEGIC PARTNERSHIP WITH LINFEN CITY, SHANXI PROVINCE, CHINA.

AGENDA REFERENCE: D-13-05144

AUTHOR: Han Jie Davis, Officer Economic

Development & Foreign Affairs

EXECUTIVE: Cheryl Wood Director Organisational

Performance

DATE OF REPORT: 19 January 2013

FILE REFERENCE: ED/2/0003

PROPONENT: Sister City Economic & Cultural

Development Advisory Committee

ATTACHMENTS: Yes x 1

SUMMARY:

The purpose of this item is to seek Council's adoption of Linfen City as a Strategic Partner and to approve a delegation to China in March/April 2013.

PROPONENT:

The proponent is the Sister City Economic & Cultural Development Advisory Committee.

BACKGROUND:

In order to maintain and develop relationships with our partner cities in China, the Sister City Economic & Cultural Development Advisory Committee (hereafter called "the Sister City Committee") met on Thursday 10th December 2012 and resolved to recommend to Council firstly, the consideration of forming an economy focused Strategic Partnership with Linfen City in Shanxi Province in China and secondly, to approve a delegation visiting China in March/April 2013.

The Sister City Committee believes that a delegation to China for advanced dialogue is required to consolidate and further develop the relationship with China. The Committee has endorsed the attached dates and itinerary for travel (Attachment 1) and has requested that it be presented for Council approval and the determination of a Council delegate to be part of the delegation.

It is intended that the delegation consists of representatives of the City and external members including State Government and local industry groups. The actual delegation will be set according to the purpose of the visit.

Achievements to date

- In June 2010, the City signed a Letter of Intent enabling further exploration of the cooperation opportunities in Yueqing City (Zhejiang Province).
- During the visit to China by the City's delegation in March 2012, two Memoranda of Understanding were signed to establish relationships

with Zhanjiang City (Guangdong Province), and Lishui City (Zhejiang Province) in China.

 In July and August 2012, the City officially adopted Zhoushan City as a Strategic Partner City (Zhejiang Province) and Zhanjiang City as a Sister City.

The outcomes of existing relationships with China

- Geraldton Grammar has commenced teaching Mandarin in 2012;
- Two Memoranda of Understanding (MOU) from Yueqing and Haiyan are under consideration by the Geraldton Grammar School which will enable teachers/students/programme exchanges;
- Signing of MOU with Zhoushan City under the existing Sister State relationship between WA and Zhejiang Province created opportunities for the City to directly communicate with the Chinese Consul General in Perth, Australia China Business Council (ACBC) and Western Australia ACBC.
- Geraldton Fisherman's Co-op is now directly communicating with Madam Wang, to potentially solve their logistic issues with China Southern Airlines that they have been having for 5 years.
- Geraldton has been singled out by Duncan Calder, Vice President of ACBC and President of ACBC in Western Australia, to be the Centre of Excellence for Mandarin teaching for school and community. He has also held up the City of Greater Geraldton's International Relationships model as one which leads the way across Australia and a model that other Local Governments should adopt in pursuing positive relationships with China.
- The proposed Sister City relationship with Zhanjiang in particular, has opened the door for Durack Technology Institute to extend their potential exchanges with China;
- Invited by Lishui City Government, a Geraldton local photographer attended the 14th International Photography Competition & Cultural Festival held in Lishui City in 2011. In 2013, Lishui City Government is engaging the City to participate in a photo exhibition that includes other cities in the world that have existing relationships with Lishui; and
- The City's process for dealing with China is applauded by the Department of State Development (DSD), the Chinese Consul General and some of the mining companies.

Linfen City Strategic Partnership

With the rapid growth of the international profile of Geraldton and the Midwest Region, more Chinese cities, such as Linfen City (Shanxi Province), have expressed their strong interest in forming a partnership with the City.

Only preliminary assessment of Linfen against the Sister City selection criteria has been undertaken at this stage, but taking into account of potential major investors that this relationship could bring to Geraldton and the Mid West Region, the Sister City Committee has recommended establishing an economic focused Strategic Partnership with Linfen.

The Mayor of Linfen City is expected to lead a delegation to visit Geraldton in April 2013 in order to identify cooperation, investment opportunities and to potentially sign a Memorandum of Understanding to form an economic focused Strategic Partnership with City of Greater Geraldton.

COMMUNITY CONSULTATION:

There has been no consultation with the community on this matter.

COUNCILLOR CONSULTATION:

Cr Chris Gabelish is the Chairman of the Sister City Committee and Cr Ron Ashplant is the Deputy Chairman of the Sister City Committee.

STATUTORY IMPLICATIONS:

There are no statutory implications.

POLICY IMPLICATIONS:

The relevant Council policy for this item is the current Policy for Establishing Sister City Relationships.

FINANCIAL AND BUDGET IMPLICATIONS:

\$30,000 has been allocated in the 2012/2013 budget to progress with relationships within China. The current balance of this budget item is \$20,000.

The cost of the trip is estimated at \$4,000 per delegate. Local business and community stakeholders joining the delegation would be required to fund their own expenses.

STRATEGIC & REGIONAL OUTCOMES:

Strategic Community Plan Outcomes:

Goal 2: Opportunities for Prosperity.

Outcome 2.1: A diverse sustainable, economic and employment

base.

Strategy 2.1.1: Support industry and business attraction activities

and marketing nationally and internationally.

Outcome 2.2: Greater Geraldton as a leading regional and rural

destination.

Strategy 2.2.1: Attract, facilitate and promote regional, national and

internationally significant events.

Strategy 2.2.2: Promote tourism and investment opportunities

including cultural tourism

Outcome 2.3: Greater Geraldton as a major regional centre

Strategy 2.3.3: Increase the national and international profile of

Greater Geraldton through partnerships with Government, industry and international

municipalities.

Regional Outcomes:

As the region's commercial, administrative and cultural hub, Geraldton plays a pivotal role in creating and adding value to a sustainable local economy. Identifying strategic partners through International alliances will ultimately lead to investment opportunities and partnerships throughout the Mid West in areas like tourism, mining, technology, manufacturing and science.

ECONOMIC, SOCIAL, ENVIRONMENTAL & CULTURAL ISSUES:

Economic:

Dialogue and development of formal relationships between the City of Greater Geraldton and international cities in China will enable economic development initiatives to be explored which may provide benefits to business, government and the local economy and community.

Social:

Relationships with cities in China will support international education, research and cooperation.

Environmental:

There are no environmental issues associated with this item.

Culture & Heritage:

Development of relationships between the City of Greater Geraldton and cities in China present opportunities for exchange between cultures, through cultural institutions, universities, colleges, museums, heritage, community arts, libraries and sports.

RELEVANT PRECEDENTS:

Council has previously supported strategic partnerships with cities in China and delegations to China.

DELEGATED AUTHORITY:

There is no delegated authority.

VOTING REQUIREMENTS:

Simple majority is required.

OPTIONS:

SC080 NOMINATIONS FOR MID WEST JOINT DEVELOPMENT ASSESSMENT PANEL MEMBERSHIP

AGENDA REFERENCE: D-13-03531

AUTHOR: M Connell, Acting Director Sustainable

Communities

EXECUTIVE: M Connell, Acting Director Sustainable

Communities

DATE OF REPORT: 16 January 2013

FILE REFERENCE: LP/9/0017

APPLICANT / PROPONENT: Development Assessment Panels

ATTACHMENTS: No

SUMMARY:

The current appointment of all local government Development Assessment Panel members is due to expire on 26 April 2013. This report seeks nominations for membership to the Mid West Joint Development Assessment Panel (JDAP) for up to a 2 year term, expiring on 26 April 2015.

PROPONENT:

The proponent is the Development Assessment Panels who report directly to the Minister for Planning.

BACKGROUND:

On 1 July 2011, 15 Development Assessment Panels (DAP) came into operation in order to determine development applications that meet a certain threshold value.

In the case of the City of Greater Geraldton for development applications with an estimated cost of \$7 million or more, it is mandatory that they are determined by a DAP. For applications \$3 million or more and less that \$7 million, the applicant has the option of having the application determined by a DAP or the local government.

Each DAP comprises 5 members; 3 specialist members, one of which is the presiding member, and 2 local government members. Appointments of all local government DAP members expire on 26 April 2013. Members whose term has expired will be eligible for re-consideration at this time.

Council is requested to nominate 4 elected members (comprising 2 local members and 2 alternate local members) to sit on the JDAP as required.

Nominations are required to be received no later than Friday 15 February, 2013. Following receipt of all local government nominations, the Minister for Planning will consider and appoint all nominees for up to a 2 year term, expiring on 26 April 2015.

All appointed local members will be placed on the local government member register and advised of DAP training dates and times. It is a mandatory

requirement, pursuant to the DAP regulations, that all DAP members attend training before they can sit on a DAP and determine applications. Local government representatives who have previously been appointed to a DAP and have received training are not required to attend further training,

Local government elections may result in a change to local DAP membership if current councillors, who are DAP members, are not re-elected. In this instance, the deputy local DAP members will take the place of the former local DAP members. If both local and alternate (deputy) local members are not re-elected, the local government will need to re-nominate for the Minister's consideration of appointment.

Council should consider the above matters in selecting nominees as JDAP members.

COMMUNITY CONSULTATION:

There has been no community consultation.

COUNCILLOR CONSULTATION:

There has been no Councillor consultation.

STATUTORY IMPLICATIONS:

Part 11A of the Planning and Development Act (2005) introduces Development Assessment Panels into the Act and this is supported by the Planning and Development (Development Assessment Panels) Regulations 2011.

Under Regulation 26 of the Planning and Development (Development Assessment Panels) Regulations 2011, Council is requested to nominate 4 elected members, comprising 2 local members and 2 alternate local members, to sit on the JDAP as required.

POLICY IMPLICATIONS:

There are no policy implications.

FINANCIAL AND BUDGET IMPLICATIONS:

There are no financial and budget implications other than staff time required in processing applications.

STRATEGIC & REGIONAL OUTCOMES:

Strategic Community Plan Outcomes:

Goal 4: Opportunities for Sustainability.

Outcome 4.1: Vibrant and sustainable urban and rural development.

Strategy 4.1.4: Develop, apply and regulate effective planning schemes,

building regulations and policies.

Regional Outcomes:

There are no regional outcomes.

ECONOMIC, SOCIAL, ENVIRONMENTAL & CULTURAL ISSUES:

Economic:

There are no economic issues.

Social:

There are no social issues.

Environmental:

There are no environmental issues.

Cultural & Heritage:

There are no cultural & heritage issues.

RELEVANT PRECEDENTS:

Council at its meeting held on 22 November 2011 nominated Mayor I Carpenter and Councillor N McIlwaine as the City's local government representatives on the Joint Midwest Development Assessment Panel, and also nominated Councillor R Ramage and Councillor N Messina as alternate local government representatives.

DELEGATED AUTHORITY:

There is no delegated authority.

VOTING REQUIREMENTS:

Simple Majority required.

OPTIONS:

Option 1:

As per Executive Recommendation in this report.

Option 2:

That Council by Simple Majority pursuant to Regulation 26 of the Planning and Development (Development Assessment Panels) Regulations 2011, RESOLVES to:

- 1. DECLINE to nominate any Councillor representatives to the Joint Midwest Development Assessment Panel; and
- 2. MAKES the determination based on the following reason:
 - a. To be determined by Council.

Option 3:

That Council by Simple Majority, pursuant to Section 3.18 of the Local Government Act 1995, RESOLVES to:

- 1. DEFER nominating any Councillor representatives to the Joint Mid West Development Assessment Panel; and
- 2. MAKES the determination based on the following reasons:
 - a. To be determined by Council.

CONCLUSION:

The City is required, under Regulation 26 of the Planning and Development (Development Assessment Panels) Regulations 2011, to nominate elected members to sit on the JDAP as required.

If Council fails to nominate any elected members the Minister for Planning can appoint any representative of the local government who is an eligible voter and the Minister considers has relevant knowledge or experience. This would further remove any decision making power from the Council and therefore Option 2 is not supported.

Option 3 is not supported as nominations are required to be received no later than Friday 15 February, 2013.

EXECUTIVE RECOMMENDATION:

That Council by Simple Majority, pursuant to Regulation 26 of the Planning and Development (Development Assessment Panels) Regulations 2011, RESOLVES to:

APPLICANT / PROPONENT: City of Greater Geraldton

ATTACHMENTS: Yes - Confidential

SUMMARY:

The purpose of this report is to seek Council's approval to establish a panel of three (3) electrical contractors from recent submissions to RFT16 1213. The panel will be in place from February 1 2013 to 31 January 2015.

PROPONENT:

The proponent is the City of Greater Geraldton.

BACKGROUND:

A tender related to the maintenance and repairs of the City's lights including street lights, parks and car parks was advertised locally in the Geraldton Guardian on 21 September 2012 and in the West Australian on 22 September 2012. The services include but are not limited to the maintenance and repairs of the City's street lights, lights in parks and reserves and City car parks. The closing date for tender was 4pm Monday 22 October 2012.

Six tenders were received from the following:

CC092 CLIPPER ROUND THE WORLD YACHT RACE - SPONSORSHIP PROPOSAL

AGENDA REFERENCE: D-13-05114

AUTHOR: A Selvey, Director of Creative

Communities

EXECUTIVE: A Selvey, Director of Creative

Communities

DATE OF REPORT: 23 January 2013 FILE REFERENCE: GO/6/0012-02

APPLICANT / PROPONENT: City of Greater Geraldton

ATTACHMENTS: Yes x1

SUMMARY:

This report provides Council with a proposal for the City of Greater Geraldton to participate in the Clipper Round the World Yacht Races 2013/14 and 2015/16 as a host port with a sponsored yacht and seeks a Council decision on the proposal and required funding.

PROPONENT:

The proponent is the City of Greater Geraldton.

BACKGROUND:

The Clipper Round the World Yacht Race, an international yachting event, has visited Geraldton twice. The first visit in 2009 arose as an opportunity when, at the last minute, negotiations between Clipper and the City of Fremantle failed and the [then] City of Geraldton-Greenough was invited to host the only Australian stopover of the 2009/10 race.

Despite the late notice, the City was able to provide good amenity, strong support and an enjoyable stopover for the crew; so much so that Clipper approached the City to host a stopover in 2011 and as part of that proposal, sought the City's sponsorship of a yacht. The City was able to secure \$200,000 funding from Eventscorp and as a result was able to sponsor a yacht "Geraldton, Western Australia" and host a nine day stopover in October/November 2011.

An independent media evaluation of the 2011/12 Clipper race found that "Geraldton, Western Australia" generated 1,924 items of world side media coverage with an estimated public relations value of £6.7 million (AU\$10 million). (See Attachment 1)

An assessment of economic return on investment for the 2011/12 races has been generated through Remplan Economic Modeling Software. Remplan economic profile is based on data sourced from the Australia Bureau of Statistics (ABS), Tourism Research Australia (TRA), and Department of Education, Employment and Workplace Relations (DEEWR). This assessment was based on conservative estimates of 300 national and international visitors, 250 state visitors (domestic overnight) for a duration of 5 days/4 nights. Under this scenario, an estimated total economic benefit of \$340,000 was generated.

The City has received a proposal from Clipper inviting the City's continued involvement as Western Australia's only 'host city' for the 2013/14 and 2015/16 races and sponsorship of a yacht in both races. The proposal offers a two race campaign package at a cost of GB£500,000 (AU\$750,000) per race or GB£1million (AU\$1.5million) for both races. The full rights fee for a boat entry in the Clipper 13-14 Race is GB£1.25 million (GB£1.5 million in Clipper 15-16) so this 2 race offer is based on a substantial discount. This package would secure the following benefits:

- Yacht naming rights and branding on 75% of the hull;
- Team name on main sail, spinnaker, boom cover, forestay banner and country flag on main sail;
- Team sponsor banners in each stopover;
- Dedicated team micro-site on official website:
- Advert and editorial in official souvenir guide (360 Magazine) and exposure in other printed publications;
- Profile in official TV series;
- Activation opportunities in stopovers;
- Use of official images and footage for below the line marketing; and
- Sailing days and static hospitality opportunities around the world.

The timeframe for the 2013/14 race is such that the race starts in July from the United Kingdom (hence the need to secure a decision and funding to provide the branding and livery on the yacht) and then subsequently the Australian stopover would be in November 2013.

The 2015/16 timeframes are yet to be confirmed. In addition to the direct cash contribution required for the City to be a sponsor, there are requirements of a 'host city' that are listed for Council.

COMMUNITY CONSULTATION:

The success of previous visits by Clipper yacht have been possible due to the significant effort from a variety of stakeholders including, but not limited to, the Mid West Chamber of Commerce and Industry, Mid West Development Commission, Geraldton Yacht Club and a variety of local businesses. These stakeholders have been advised that the City has received a two race package proposal from Clipper that will be considered by Council.

COUNCILLOR CONSULTATION:

There has been no Councillor Consultation.

STATUTORY IMPLICATIONS:

There are no statutory implications.

POLICY IMPLICATIONS:

There are no policy implications.

FINANCIAL AND BUDGET IMPLICATIONS:

The total cost for the City to sponsor a yacht and be a host city for both the 2013/14 race and the 2015/16 race is \$1.5M or \$750,000 per race based on a two race campaign which would be paid over a four year period (12/13, 2013/14, 2014/15, and 2015/16).

Over the four year agreement commencing 2012/13, the City would seek a total contribution of \$1.1 million from Eventscorp and would be required to contribute \$100,000 per financial year over the same four year period to meet the sponsorship requirements. A further \$50,000 for each race year (2013/14 and 2015/16) would be required to meet the obligations of being a host city.

STRATEGIC & REGIONAL OUTCOMES:

Strategic Community Plan Outcomes:

Goal 2: Opportunities for Prosperity

Outcome 2.2: Greater Geraldton as a leading regional and rural

destination

Strategy 2.2.1: Attract, facilitate and promote regional, national and

internationally significant events

Regional Outcomes:

Economic, social and cultural outcomes are not limited to Geraldton as there are strong outcomes for the region and more broadly the state. The broader state-wide benefit of hosting a West Australian stopover and a yacht cobranded with 'Western Australia' was recognised by Tourism WA as is evidenced by their financial support for the City's involvement in Clipper's 2011/12 race.

ECONOMIC, SOCIAL, ENVIRONMENTAL & CULTURAL ISSUES:

Economic:

Global media coverage of the race is independently estimated as having a public relations value of £6.7million (AU\$10million).

The following local economic impact of the 2011 stopover, based on the following conservative visitor numbers has been calculated using Remplan:

- Visitors national and international 300
- Visitors State (Domestic Overnight) 250
- Duration 5 days/4 nights

Under this scenario, total economic benefit is calculated at approximately \$340 000.

The race also provides significant exposure to international investors who otherwise may never be aware of, or consider Geraldton as an investment opportunity.

Social:

The 2009 and 2011 stopovers in Geraldton provided capacity building opportunities for the community via events such as Geraldton Senior College Sail and Try Sailing Days. Programs such as these enhance community life and build social capital.

Greater lead time provided being securing a 2 race (4 year) timeframe enables greater engagement with local community and industry providers and potential facilitate greater ties with other cities for programs.

Environmental:

There are no environmental issues.

Cultural & Heritage:

The media exposure and visitation generated by participation in the Clipper race and as a host city provides opportunity to showcase the culture and heritage of the City and region to an international audience. Tourism product currently enjoyed by Cruise ship passengers such as visits to Yamaji Art, heritage tours and HMAS Sydney II Memorial Tours, would benefit from the further exposure offered by Clipper.

RELEVANT PRECEDENTS:

The City hosted the stopover of the Clipper Round the World Yacht Race in 2009 and in 2011 hosted the stopover and with Tourism WA, co-sponsored a vacht in the race.

DELEGATED AUTHORITY:

There is no delegated authority.

VOTING REQUIREMENTS:

Simple Majority required for Option 2 and Option 3. Absolute majority required for Option 1 (Executive Recommendation).

OPTIONS:

Option 1:

As per Executive Recommendation in this report.

Option 2:

That Council by Simple Majority pursuant to Section 3.1 of the Local Government Act 1995 RESOLVES to:

- 1. DECLINE the Clipper Round the World Yacht Race two race package proposal;
- 2. MAKES the determination based on the following reasons:
 - a. To be determined by Council

Option 3:

That Council by Simple Majority pursuant to Section 3.1 of the Local Government Act 1995 RESOLVES to:

- 1. DEFER a decision on the Clipper two race package proposal;
- 2. MAKES the determination based on the following reasons:
 - a. To be determined by Council

CONCLUSION:

Independent media evaluation and Remplan economic assessments demonstrate significant return on investment for the City's previous involvement with Clipper Round the World Yacht Race. Clipper provides arguably one of the best opportunities to showcase Geraldton and the Region to international, national and domestic markets. Tourism is recognised as an economic driver that will add diversity, depth and sustainability to this region's economic growth potential. Option 1 is recommended as it provides for a longer term focus resulting in more preparation time resulting in better planning which will allow the City to maximise the potential benefits associated with Clipper.

EXECUTIVE RECOMMENDATION:

That Council by Absolute Majority pursuant to Section 6.8 of the Local Government Act 1995 RESOLVES to:

- 1. ACCEPT the two race package proposal from Clipper;
- 2. APPROVE \$100,000 expenditure in the 2012/13 budget as part of the mid-year budget review to meet immediate sponsorship requirements;
- 3. COMMIT \$100,000 per annum in the 2013/14, 2014/15 and 2015/16 budgets to meet ongoing sponsorship requirements;
- 4. COMMIT \$50,000 per annum in the 2013/14 and 2015/16 budgets to meet 'host city' obligations; and
- 5. SEEK funding of \$1.1million over four years from Eventscorp.
