In person: Administration Centre, 63 Cathedral Avenue, Geraldton

Mullewa Office, cnr Thomas and Padbury Streets (by appointment only)

2.0 TOURISM ZONE OBJECTIVES

- a) promote and provide for tourism opportunities.
- b) provide for a variety of holiday accommodation styles and associated uses, including retail and service facilities where those facilities are provided in support of the tourist accommodation and are of an appropriate scale where they will not impact detrimentally on the surrounding or wider area.
- c) allow limited residential uses where appropriate.
- encourage the location of tourist facilities so that they may benefit from existing road services, physical service infrastructure, other tourist attractions, natural features and urban facilities.

3.0 SITE AND DEVELOPMENT REQUIREMENTS

Minimum lot size	1,000m ²					
Minimum setback	6 metres					
Primary street	o menes					
Minimum setback	Variable					
Secondary street / side boundary	or as per R-Codes where adjoining Residential zone					
Minimum setback	5 metres					
Rear boundary / other	5 menes					
Maximum plot ratio	Variable					
Maximum building height	Variable					
Minimum landscaping	Variable					

- 3.1 The local government may approve a combination of short-term tourism accommodation and permanent residential accommodation on the same site provided that it complies with the following:
 - a) the predominant use of the site remains for short-term tourism / holiday accommodation and other tourism uses and provides for a high quality tourism outcome or tourism benefit.
 - b) the proposal is not in an isolated location and considers the broader planning and settlement context of the area.
 - c) physical infrastructure and services are or will be available, including consideration of the urban infrastructure requirements of a permanent population where residential is proposed.
 - d) the scale and design of the site complements the surrounding landscape and character of the area, with the tourism component given priority in those areas of highest tourism amenity (e.g. the beachfront).
 - e) the residential component is integrated with both the tourism uses and management structure of the proposal.
 - f) where tourism development and permanent residential accommodation are developed on the same site, the protection of residential amenity through careful design of both facilities and accommodation on the site shall occur in order to minimise disturbance and conflicts between land uses.
- 3.2 Where strata titling is proposed, appropriate management arrangements should be in place (e.g. via a management statement) that restricts the maximum length of stay to three months in any twelve month period applied for the tourism accommodation component.

City of Greater Geraldton Local Planning Scheme No. 1 – Scheme Text

3.15 Interpreting zoning table

- 3.15.1 The permissibility of uses of land in the various zones in the Scheme area is determined by cross-reference between the list of use classes on the left hand side of the zoning table and the list of zones at the top of the zoning table.
- 3.15.2 The symbols used in zoning table have the following meanings:
 - P means that the use is permitted if it complies with any relevant development standards and requirements of this Scheme.
 - I means that the use is permitted if it is consequent on, or naturally attaching, appertaining or relating to the predominant use of the land and it complies with any relevant development standards and requirements of this Scheme.
 - D means that the use is not permitted unless the local government has exercised its discretion by granting development approval.
 - A means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving notice in accordance with clause 64 of the deemed provisions.
 - X means that the use is not permitted by this Scheme.

Note:

- 1. The development approval of the local government may be required to carry out works on land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the carrying out of works on, and the use of, land. For development on land that does not require development approval see clause 61 of the deemed provisions.
- 2. In considering an application for development approval, the local government will have regard to clause 67 of the deemed provisions.
- 3.15.3 A specific use class referred to in the zoning table is excluded from any other use class described in more general terms.
- 3.15.4 The local government may, in respect of a use that is not specifically referred to in the zoning table, or in a special use zone listed in Schedule 3, and that cannot reasonably be determined as falling within a use class referred to in the zoning table:
 - (a) determine that the use is consistent with the objectives of the particular zone and is therefore a use that may be permitted in the zone subject to conditions imposed by the local government; or
 - (b) determine that the use may be consistent with the objectives of the particular zone and give notice under clause 64 of the deemed provisions before considering an application for development approval for the use of the land; or
 - (c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted in the zone.
- 3.15.5 If a use of land is identified in a zone as being a class P or class I use, the local government may not refuse an application for development approval for that use in that zone but may require works that are to be undertaken in connection with that use to have development approval.
